EXPERIENCE

< > UX Researcher & Developer (and crisis worker) Blue Bonnet Trails

Mar 2023 - Present

JavaScript | CSS | HTML | CSS | User Interviews | Usability Studies | User Interviews

I made super woman's job easier! I designed, developed and tested a locally run single page application (SPA), which securely automates a tedious part of the crisis center's workflow. Intakes used to take two people. Now they take one!

< > Web Designer & Developer SRT Services

Mar 2023 - Present

JavaScript | CSS | HTML Canvas | CSS | User Interviews | Wireframing | Prototyping

Design and develop simple yet engaging SPA in order to stream line SRT's intake process. Create engaging UI based off pre-existing style sheet.

UX Researcher Kiowa Creek

Oct 2022 - Jan 2023

Google Analytics | Competitive Audit | User Flows | User Interviews | Quant Surveys | Miro | Userbit | Feature Prioritization | Affinity Maps | Site Maps | Usability Testing | MAZE

Collaborated with project manager & developer to build and implement research plan and redesign Kiowa Creek's website.

< > UX Designer & Developer Boothe Concrete Inc

Oct 2022 - Feb 2023

UX Research | Site Maps | Wire Framing/Prototyping | Figma | Usability Studies | Feature Prioritization | Webflow | Accessibility Testing

Researched, designed, developed and tested responsive website for Boothe Concrete.

Web Designer & Developer AESA Prep Academy

May -Sept 2022

HTML/CSS | Bootstrap | Brightspace Learning Platform | WCAG AA Success Criteria | Adobe Photoshop & Illustrator | Usability Testing

Designed & developed reusable components with HTML/CSS for online learning platform. Led accessibility and usability workshops for teachers. Evangelized UI/UX and accessibility best practices. Provided troubleshooting throughout implementation.

Graphic Designer Emporium of Melodies

Spring 2022 - Present

Adobe Photoshop | Color Theory | Graphic Design

Collaborate with business owner to create shared & marketable vision & create album art.

< > Web Designer & Developer Dylan RMC

Fall 2021- Winter 2022

JavaScript | CSS | Adobe Photoshop | CSS | Graphic Design

Transformed client priorities to responsive and interactive portfolio site for artist, Dylan Rhon McMahon.

JavaScript Tutor & TA Code Tenderloin & Kris Elyse Designs

Summer 2020-Winter 2021

JavaScript | CSS | HTML

Taught fundamentals of JavaScript, HTML and CSS.

Prior to tech, I spent almost a decade working in crisis management & homelessness services. Ask me about it!
